Project Description: (please use a separate page if necessary)

The Department of Parks and Recreation proposes to remove six channel-constricting culverts and to replace them with a single-span, precast concrete bridge to reestablish channel connectivity and fish passage, to allow natural channel development, to provide habitat connectivity, and to improve public access. The project is located on lower Willow Creek Road approximately two miles southeast of the community of Jenner in Sonoma County, California.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
